MONTANA PREVAILING WAGE REQUIREMENTS:

The Commissioner of the Department of Labor and Industry, in accordance with Sections 18-2-401 and 18-2-402 of the Montana Code Annotated, has determined the standard prevailing rate of wages for the occupations listed in this publication.

The wages specified herein control the prevailing rate of wages for the purposes of 18-2-401, et seq., Montana Code Annotated. It is required that each employer pay, as a minimum, the rate of wages, including fringe benefits and zone pay applicable to those occupations in which the work is being performed, as provided in the attached wage determinations.

All Montana Prevailing Wage Rates are available on the Internet at: www.ourfactsyourfuture.org or by contacting the Research and Analysis Bureau at (800) 541-3904 or TDD (406) 444-0532. In addition, this publication provides general information concerning compliance with Montana's Prevailing Wage Law and payment of prevailing wages. For detailed compliance information relating to Public Works projects and payment of prevailing wage rates, please consult the Regulations on the Internet at: www.mtwagehourbopa.com or contact the Labor Standards Bureau at (406) 444-5600 or TDD (406) 444-5549.

KEITH KELLY

Commissioner
Department of Labor and Industry
State of Montana

B. Definition of Highway Construction

The Administrative Rules of Montana (ARM) 24.17.501 (4) – (4)(a), Public Works Contracts For Construction Services Subject to Prevailing Rates, states that “Heavy construction projects include, but are not limited to, those projects that are not properly classified as either ‘building construction’, or ‘highway construction.’

Highway construction projects include, but are not limited to, alleys, base courses, bituminous treatments, bridle paths, concrete pavement, curbs, Excavation and embankment (for road construction), fencing (highway), grade crossing Elimination (overpass or underpass), guard rails on highway, highway signs, highway bridges streets and highways, roadways, runways, shoulders, stabilizing courses, storm sewers incidental to road construction, street paving surface courses taxiways and trails.

Federal Davis-Bacon wage rates as published in U.S. Department of Labor General Wage Decision No. MT20030001 Modification No.14 have been adopted by the Montana Department of Labor and Industry for use in Heavy Construction projects and are included in this publication. These rates apply statewide or as shown in MT20030001 Modification No. 14.

C. Definition of Public Works Projects

The Montana Code Annotated (18-2-401 (11)(a)) defines “public works contract” as “a contract for construction services let by the state, county, municipality, school district, or political subdivision or for nonconstruction services let by the state, county, municipality, or political subdivision in which the total cost of the contract is in excess of \$25,000.”

D. Prevailing Wage Schedule

This publication covers only Highway Construction occupations and rates in the specific localities mentioned herein. These rates will remain in effect until superseded by a more current publication. Current prevailing wage rates schedules for Building Construction, Heavy Construction and Non-construction Services occupations can be found on the Internet at www.ourfactsyourfuture.org or by contacting the Research and Analysis Bureau at (800) 541-3904 or TDD (406) 444-0532.

E. Fringe Benefits

Section 18-2-412 of the Montana Code Annotated states that:

“(1)... a contractor or subcontractor may:

(a) pay the amount of fringe benefits and the basic hourly rate of pay that is part of the standard prevailing rate of wages directly to the worker or employee in cash;

(b) make an irrevocable contribution to a trustee or a third person pursuant to a fringe benefit fund, plan, or program that meets the requirements of the Employee Retirement Income Security Act of 1974 or that is a bona fide program approved by the United States Department of Labor; or

(c) make payments using any combination of methods set forth in subsections (1)(a) and (1)(b) so that the aggregate of payments and contributions is not less than the standard prevailing rate of wages, including fringe benefits for health and welfare and pension contributions that meet the requirements of the Employee Retirement Income Security Act of 1974, travel, or other bona fide programs approved by the United States Department of Labor, that is applicable to the district for the particular type of work being performed.

(2) The fringe benefit fund, plan, or program described in subsection (1)(b) must provide benefits to workers or employees for health care, pensions on retirement or death, life insurance, disability and sickness insurance, or bona fide programs that meet the requirements of the Employee Retirement Income Security Act of 1974 or that are approved by the United States Department of Labor. Fringe benefits are paid for all hours worked (straight time and overtime hours). However, fringe benefits are not to be considered a part of the hourly rate of pay for calculating overtime, unless there is a collectively bargained agreement in effect that specifies otherwise.”

Employers are obligated to pay the wage rates and fringes as listed in the booklet, including the zone hourly rate when applicable. For heavy and highway construction occupations, the vacation benefit amount is not included in the prevailing wage rate, unless stated otherwise.

F. Apprentices

Wage rates for apprentices registered in approved federal or state apprenticeship programs are contained in those programs. However, apprentices not registered in approved federal or state apprenticeship programs will be paid the prevailing wage rate when working on a public works contract.

G. Posting Notice of Prevailing Wages

Section 18-2-406, Montana Code Annotated, provides that contractors, subcontractors, and employers who are performing work or providing services under public works contracts as provided in this part shall post in a prominent and accessible site on the project or work area, not later than the first day of work, a legible statement of all wages to be paid to the employees on such site or work area.

H. Employment Preference

Sections 18-2-403 and 18-2-409, Montana Code Annotated require contractors to give preference to the employment of bona fide Montana residents in the performance of work on public works contracts.

I. Rates to Use for Projects

Rates to be used on a public works project are those that are in effect at the time the project and bid specifications are advertised.
